

Barrow Veterinary Hospital
Pre-Anesthesia Consent form

We recommend a Blood Panel be run before the surgery to help detect any internal problems that may not be evident upon a physical examination we also recommend a FeLV/FIV test be preformed on all feline patients at least once in their lives because Feline Leukemia and Feline Immunodeficiency Virus (Feline Aids) are viruses for which no cure exists. If your pet goes outside, we recommend administering the Feline Leukemia vaccine as well. Please ask questions if you would like to learn more about Feline Leukemia and Feline Aids. This process includes drawing a single blood sample. The cost of the recommended blood panel is as follows.

- Blood Profile 1:** Healthy Pets younger than 2 years\$97.87
- Blood Profile 2:** Healthy Pets age 2 to years\$114.96
- Blood Profile 3:** Pets Older than 7 years or with questionable health status..\$164.67
- Home Again Microchip:** Implant done while pet is anesthetized.....\$10 off

Check One: _____ Blood Profile 1
 _____ Blood Profile 2
 _____ Blood Profile 3
 _____ FeLV/FIV

_____ I decline the recommended Pre-Anesthetic Blood Profile and request that you proceed with anesthesia. I assume full financial responsibility for this pet. I understand there is always a potential risk with anesthesia and surgery.
